Subject: Carolina water

I beg of you, as a senior grandmother, on fixed income, trying to make ends meet, please don,t let Carolina Water continue to terrorize your citizens with threats of water increases. Finiances are not better, in most cases worse because its now winter and the power bills go up so we choose to be cold and buy food or be warm and cut back on things we need. We are trying to make ends meet but everything keeps going up. This company, whose home office is not based here, are nothing short of being bullies and trying to make up for their own inefficiencies on the backs of people who just don't have anymore to give especially with property tax increases we just are suffering through. Please thank you,

Barbara Summers
